

ETAPE 4 Distance 53 km. Route: Ancient Nemea - "Perachora"

Early in the morning, we leave Ancient Nemea directing towards Ancient Corinth. The endless blue sea appears in the horizon. On our right there is the unique image of Ancient Corinth; an image to remember. On our left, there is the village with its small touristic boutiques.

After a few more kilometres, we cross the Isthmus of Corinth, another unique and impressive site, thus leaving Peloponnese behind us and entering the Greek mainland (Sterea Hellada).

We pass the bustling coastal town of Loutraki and, always having the sea on our right, we arrive in the green area of Perachora after 10 kilometres.

The distance from Nemea to Perachora is perhaps one of the easiest Etape of our journey, so we use it to our advantage, to gather some strength and prepare for the difficult Etapes to come.
